

Cleanline TOOL FLAT BOARD

Reliable Flat Board Denesting

The Cleanline Tool Flat Board is your solution for denesting various types of flat boards. This electrical tool ensures swift and reliable denesting, optimizing your workflow with accurate processing of up to 90 flat boards per minute.

One-Minute Tool Change

Change between flat board sizes or types in just one minute. The tool is tailored to work exclusively with the Cleanline Rack Servo, forming a compact, efficient solution that keeps your line flexible and your downtime minimal.

Hygienic & Low Maintenance

With stainless steel construction and few moving parts, the tool is built for hygienic environments and easy cleaning. Its low-maintenance design reduces operating costs while providing the safety, scalability, and reliability needed for sustainable production.
